

INDEX TO VOLUME 18

The star (*) preceding the page number indicates an original article in THE ARCHIVES. No author entries are made except for original articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

	PAGE
Acetic anhydride-sulphuric acid test; Boltz cerebrospinal fluid test.....	*565
Achlorhydria, significance of.....	622
Acoustic system, structure and functions of, in whale.....	296
Ainhum, nervous disorders in.....	596
Allan, W.: Neuropathic taint in migraine.....	587
Alpers, B. J.: Decerebrate rigidity following encephalitis; report of case with necropsy.....	*1
paroxysmal spasm of eyelids as post-encephalitic manifestation.....	*427
Amyotonia congenita, pathology of; its relation to infantile progressive muscular atrophy.....	*982
Anemia, pernicious, etiology and treatment of.....	627
pernicious, recent advances in.....	602
Aneurysm, paralysis of third, fourth and sixth nerves associated with contracted pupil due to aneurysm, probably of left internal carotid artery near its termination.....	475
Ankylostomiasis, nervous disorders in.....	596
Arachnoiditis, adhesive spinal, simulating spinal cord tumor; operation and complete recovery.....	140
Arteriosclerosis, malignant hypernephroma with, in children.....	829
Artery, right carotid, injury to; sympathetic phenomena.....	473
Ataxia, Friedreich's, 2 cases with especial reference to the rôle of alcoholism.....	134
Atrophy, cerebellar, postencephalitic, sequelae of.....	630
infantile progressive muscular; relation of pathology of amyotonia congenita to.....	*982
progressive, familial; incidence of peroneal type of.....	634
progressive muscular, peroneal form of; clinical report of 2 families.....	*766
progressive neuritic, muscular.....	572
somatic; syndrome of cerebral origins of visceral nervous system.....	*249
visceral; syndrome of cerebral origins of visceral nervous system.....	*249
unilateral; syndrome of cerebral origins of nervous system.....	*249
Babinski Sign: See Reflexes, plantar	
Bacteria, flagella, abnormal, in cultures; resemblance to spirochetes.....	633
Behavior, cocooning, of saturnian caterpillar (<i>Dictyoploca japonica</i>); problem in analysis of insect conduct.....	118
disorders in children, some results of endocrine therapy in.....	1050
effect of encephalitis on, in children.....	448
neokinesis: contribution of mammals to evolution of brain.....	644
nest-building activity of albino rat.....	1048
psychology of conduct, according to Pierre Janet.....	1057

Behavior—Continued	PAGE
stereotyped habit movements in children; analytic study.....	462
Bellinger, M.: Metabolism in epilepsy: blood sugar curve.....	*395
Metabolism in epilepsy: sugar content of blood.....	*383
Beriberi, basal metabolism in.....	634
nervous disorders in.....	596
Birth Control, neuropsychiatric point of view of significance of eugenics for pregnancy and marriage.....	1035
Bladder disturbances in lesions of nervous system.....	821
Blood, hemolytic constitution.....	629
serum, diastatic activity of, in mental disorders.....	456
sugar, hypoglycemia and recurrent vomiting.....	627
sugar, in epidemic encephalitis.....	122
sugar content in epilepsy.....	*383
sugar curve, in epilepsy.....	*395
sugar metabolism in chronic epidemic encephalitis and paralysis agitans.....	820
theory and practice of permeability tests by "brommethod".....	824
Bone, fragilitas ossium and deafness.....	634
petrous, erosion of, by acoustic nerve tumor; demonstration by roentgen ray.....	459
BOOK REVIEWS:	
Anatomical, Phylogenetical and Clinical Studies on the Central Nervous System; B. Brouwer.....	866
Anatomie des Nerfs Craniens et Rachidiens et du Système Grand Sympathique, chez l'Homme; A. Hovelacque.....	154
Anleitung zu Psychiatrischen Untersuchungen; H. Seclert.....	866
Aphasia and Kindred Disorders of Speech; H. Head.....	1062
Ataxies Aigues: L'Ataxie Aigue Tabétique; J. DeCourt.....	669
Child Guidance, with an introduction by Dr. Thomas W. Salmon; S. Blanton and M. G. Blanton.....	153
Compendium of Regional Diagnosis in Affections of the Brain and Spinal Cord; R. Bing.....	866
Conquest of Disease; T. B. Rice.....	493
Criminal Intelligence; C. Murchison.....	865
Croonian Lectures on the Evolution and Dissolution of the Nervous System; J. H. Jackson.....	670
Delusion and Belief; C. N. Campbell.....	494
Dystonies D'Attitudes; A. Thevenard.....	489
Escape from the Primitive; H. Carncross.....	865
Excitabilité en Fonction du Temps; la Chronaxie, sa Signification et sa Mesure; L. Lapicque.....	155
Freudian Essays on Religion and Science; C. Moxon.....	320
Gesundheit und Krankheit in Nietzsche's Leben und Werk; K. Hildebrandt.....	1059
Goiter and Other Diseases of the Thyroid Glands; A. S. Jackson.....	490
Grundriss der Kriminalbiologie; A. Lenz.....	491
Grundlagen der Psychoanalyse; H. Hartmann.....	864
Hirnpathologische Beiträge; K. Schaffer.....	1064
Intracranial Tumors and Some Errors in Their Diagnosis; J. Purves-Stewart.....	1063

INDEX TO VOLUME 18

Book Reviews—Continued

	PAGE
Introduction a l'Étude de la Psychogénèse; M. Dide.....	1060
Muscular Contraction and the Reflex Control of Movement; J. F. Fulton.....	664
Neurologie, Neuropathologie, Psychologie, Psychiatrie	321
Normale und Pathologische Anatomie und Histologie des Grosshirns; A. Jakob....	492
Nouvelles Methodes sur les Reactions Colloïdales du Liquide Cephalo-Rachidien; E. Thurzo	319
Pathologie et Methodes d'Examen du Liquide Cephalo-Rachidien; B. Borchewsky	494
Peyotl (Echinocactus Williamsii); A. Rouhier	668
Practical Clinical Psychiatry for Students and Practitioners; E. A. Strecker and F. G. Ebaugh.....	157
Psychischen Heilmethoden; K. Birnbaum	667
Readings in Abnormal Psychology and Mental Hygiene; W. S. Taylor.....	1063
Significance of the Physical Constitution in Mental Disease; F. I. Wertheimer and F. E. Hesketh.....	667
Syndromes Hemianopsiques dans le Ramollissement Cerebral; S. Schiff-Wertheimer	319
Technique Histo-Bacteriologique Oculaire; Y. D'Autrevaux	669
Text-Book of Biological Chemistry; J. B. Sumner	494
Textbook of Clinical Neurology; I. S. Wechsler	669
Toxicomanias; G. Bermann.....	862
Travaux et Memoires; P. Marie.....	670
Brain: See also Cerebellum; Corpus Striatum, etc.	
abscess, chronic, treatment of, by tapping.	618
allocortex in animals and in man.....	99
are higher psychic functions localized in frontal lobes? endothelial tumor removed from left frontal lobe.....	640
calcium and iron deposits in.....	825
cerebral circulation	*81
concussion, postconcussion neurosis-traumatic encephalitis; conception of postconcussion phenomena	*181
cortex, changes in, in general paralytic and syphilitic patients treated by malaria	599
cortex, cortical heterotopia in pontile meninges	831
cortex, iron compounds in cerebral and cerebellar cortex of insane; histochemical study	295
cortex, new type of heredogenerative disease localized in striate body and cortex with extensive myelolysis: its distinction from pseudoscleroses	809
cortex, parietal, sensory syndrome of....	473
cortex, pathologic changes in Huntington's chorea, with special reference to corpus striatum	*867
cortex, rôle of, in control of postural reflex	829
development of, in animals; effect of roentgen rays on.....	273
disorders following injuries to cervical sympathetic nerves	119
epidural space in its relation to spinal fluid	1039
evolution of, contribution of mammals to; neokinesis	644

Brain—Continued

	PAGE
evolution of knowledge of, during last 60 years; personal observations.....	832
hemorrhage, massive, its relation to pre-existing cerebral softening.....	*215
hemorrhage, spontaneous subarachnoid, with recovery: etiology in absence of any obvious renal or vascular disease and without any known infection or general tendency to hemorrhages of any kind	1043
hemorrhage, subarachnoid	802
hemorrhagic cyst of third ventricle causing peculiar neuropsychiatric syndrome.	1047
histologic changes in central nervous system in cats poisoned with lead, and their relation to clinical phenomena, particularly convulsions	1032
hitherto unobserved structure in, of some mammals: subfornix of third ventricle.	621
injury, chronic subdural accumulations of cerebrospinal fluid after; case.....	*709
injury, modification of venous pressure following, and in organic hemiplegias..	830
iron and calcium deposits in.....	825
iron compounds in, in insane.....	295
lesions, bullet wound of frontal lobe....	482
lesions, focal, calculation disturbances in	611
lesions, localization, value of optic nystagmus in	1040
lesions, 116 verified; value of vestibular tests in localization.....	449
medullary and pontile syndromes.....	147
mental diseases and digestion.....	630
mental disorders, diastatic activity of blood serum in.....	456
mesencephalic origin of nerve fibers of neural portion of hypophysis.....	626
morphology of temporal lobe.....	619
myxedema and infantile encephalopathy..	471
paralysis, birth	631
syndrome of cerebral origins of visceral nervous system; somatic and visceral atrophy; review of reported cases of unilateral atrophy	*249
trophic edema of cerebral origin.....	844
tumor, edema in.....	605
tumor, cerebriiform appearance of skull in	472
tumor, ependymal glioma: neurologic study; vestibular functions.....	295
tumor, in Recklinghausen's disease.....	453
tumor, intradural spinal lipoma; case; symptoms for 10 years in child; review of literature	*16
tumor, irradiation of.....	648
tumor, localization of function of calculation	828
tumor, of cerebellopontile angle (with few physical signs and pronounced dementia)	298
tumor, pineal; roentgen ray treatment of.	301
tumor, secondary	621
tumor, with encephalitis.....	*433
British American neurologic meeting; some impressions	*779
Bromide, theory and practice of permeability tests by "brommethod".....	824
Cady, L. D.: Acetic anhydride-sulphuric acid test; further data on Boltz cerebrospinal fluid test.....	*565
Calcium deposits in brain.....	825
Calculation, localization of function of....	828
Cancer, meningitic	457

INDEX TO VOLUME 18

	PAGE
Cancer—Continued	
metastases to spine, multiple sclerosis complicated by	*789
Carbon monoxide, poisoning, catatonic psychosis with motility disturbances following	452
Catatonla: See Dementia Praecox	
Cauda Equina: See Spinal Cord	
Cerebellum, glioma of pons varoli simulating frontomotor tumor.....	614
postencephalitic sequelae of cerebellar atrophy type	630
puncture wounds of; injury by foreign body entering through jugular foramen; removal and recovery.....	115
rôle and mechanism of action in regulation of movements.....	113
tumor of, cerebriiform appearance of skull in certain cases of.....	472
tumor of right medulla in which clinical diagnosis had been tumor of right cerebellum	639
weight and total brain weight.....	624
Cerebrospinal Fluid, analysis of tests of....	827
antiseptic, hexylresorcinol as.....	590
Boltz test of; acetic anhydride-sulphuric acid test	*565
chronic subdural accumulations of, after cranial trauma; case.....	*709
colloidal paraffin reaction in.....	126
Dr. Frank Fremont-Smith's reply to Dr. G. B. Hassin's criticism of his article..	*97
epidural space in its relation to.....	1039
intra-ocular and intracranial pressure; experimental study	*550
origin of; meningeal capillary permeability and composition of.....	651
some errors in Dr. Frank Fremont-Smith's article "The Nature of the Cerebrospinal Fluid"	*96
sugar and chloride content of, with special reference to neurosyphilis.....	458
Huntington's pathologic changes in; with special reference to corpus striatum....	*867
neuropsychiatric aspects of, in children..	455
Cistern puncture, sudden death from; case.	1034
Cocaine, psychic influence of, and its significance in psychopathology.....	615
Cohen, I.: Chronic subdural accumulations of cerebrospinal fluid after cranial trauma; case	*709
Constitution, types, incidence and test performances of "Kretschmer types" among convicts	485
Convulsions, in cats poisoned with lead, relation of histologic changes in central nervous system to.....	1032
Copper, "hooch" and "home brew" and....	460
Cornwall, L. H.: Comparison of Vernes and Wassermann tests as applied to spinal fluid	*56
Origin of myelin.....	*241
Corpus Striatum, new type of hereditary degenerative disease localized in striate body and cortex with extensive myelolysis: its distinction from pseudoscleroses....	809
pathologic changes in Huntington's chorea with special reference to.....	*867
secondary degenerations following lesions in man; symptoms and acute degenerations following experimental lesions in cats	*495
Criminals, incidence of syphilis among.....	1051
Deafness, fragilitas ossium and.....	634

	PAGE
Dementia, pronounced, tumor of cerebellar pontile angle with.....	298
Dementia Praecox, catatonic psychosis with motility disturbances following carbon monoxide poisoning	452
disorders of respiration in.....	631
prognosis in schizophrenia.....	455
Diabetes, retrobulbar neuritis in.....	459
Dieterle, R. R.: Method for demonstration of spirochaeta pallida in single microscopic sections	*73
Diet, meat, exclusive, long-continued, effects of	459
Digestion, mental diseases and.....	630
Doyle, J. B.: Obstruction of longitudinal sinus	*374
Dreams, children's, subject matter and motivation of	460
Dunlap, C. B.: Pathologic changes in Huntington's chorea; with special reference to corpus striatum.....	*867
Duodenum, ulcer: See Peptic Ulcer	
Dystrophy, muscular, progressive, with extrapyramidal signs	292
myotonic; case; and meningioma; case....	636
Ear: See also Vestibular Apparatus	
labyrinth, anatomy and physiology of; and of eighth nerve.....	281
Edema, angioneurotic; asthma in children: incidence and significance of eczema, urticaria and	126
cerebral, in tumor of brain.....	605
trophic, of cerebral origin.....	840
Eisenbud, A.: Peroneal form of progressive muscular atrophy; clinical report of 2 families	*766
Emotion, disturbances of, thymergic reactions and certain types of hypochondriacal hypothymergasias (hypochondriacal depressions)	848
Encephalitis, decerebrate rigidity following; case; necropsy	*1
effect on behavior of children: postencephalitic boys in hospital school; diagnosis of postencephalitic conditions; general considerations in encephalitis as they affect medical profession.....	448
encephalitic torsion spasm.....	643
etiology of, following vaccination against smallpox	613
hemiplegia of encephalitic origin, Parinaud's syndrome and double crossed syndrome of Foville with.....	297
paroxysmal spasm of eyelids as postencephalitic manifestation	*427
periaxialis diffusa (Schilder); clinical and anatomic studies; case.....	*944
postconcussion neurosis-traumatic; conception of postconcussion phenomena.....	*181
postencephalitic sequelae of cerebellar atrophy type	630
with tumor of brain; case.....	*433
Encephalitis, Epidemic, acute, case in newborn twin, with histologic observations	*44, 655
blood sugar curves in.....	122
chronic	612, 625
chronic, paralysis agitans and, sugar metabolism in	820
chronic, pathologic-anatomic changes in..	811
formation of commission for study of....	272
postencephalitic obesity	830
posterolateral sclerosis following.....	308

INDEX TO VOLUME 18

	PAGE		PAGE
Encephalitis--Continued		Forbes, H. S.: Intra-ocular and intracranial pressure; experimental study.....	*550
relationship of, to some hysterical manifestations	293	Ford, F. R.: Etiology of infantile acquired hemiplegia	*323
Encephalopathy, infantile, and myxedema...	471	Foville syndrome, double crossed, Parinaud's syndrome and, with hemiplegia of encephalitic origin	297
Endocrine disorders, incidence of vertigo in therapy, some results of in behavior disorders in children.....	1050	Fox-Fordyce Disease associated with hyperthyroidism	1049
toxic epilepsy	1042	Freeman, W.: Encephalitis with tumor of brain; case	433
Endothelioma, removed from left frontal lobe; are higher psychic functions localized in frontal lobes?.....	640	Fremont-Smith, F.: Dr. Smith's reply to Dr. Hassin's criticism of his article....	*97
Enuresis in adolescent boys.....	1053	Intra-ocular and intracranial pressure; experimental study	*550
Epilepsy: chemical investigations of rational treatment by production of ketosis.....	628	Gilberti, V.: Postconcussion neurosis--traumatic encephalitis; conception of postconcussion phenomena	*181
Claude Bernard-Horner syndrome in patients with	477	Glioma, in fourth ventricle, with involvement of triangular vestibular nucleus... of pons	454 610
convulsions, persistent, cessation of, after puncture of lateral ventricles; hydrocephalus with	315	Globus, J. H.: Cajal and Hortege glia staining methods; new step in preparation of formaldehyde-fixed material.....	263
endocrine-toxic	1042	Massive cerebral hemorrhage; its relation to preexisting cerebral softening.....	*215
in childhood	460	Goiter, endemic, intelligence and.....	634
inheritance of	627	exophthalmic, lymphorrhages in muscles in	124
metabolism in; sugar content of blood....	*383	iodized salt in prevention of: is it safe for general use?.....	117
of stump; rôle of perivascular centripetal pathways; reflex physiopathic disorders; relationship with latent tetanus.....	654	Grinker, R. R.: Pathology of amyotonia congenita; discussion of its relation to infantile progressive muscular atrophy.*	*982
personality make-up of epileptics.....	144	Grossman, M.: Peroneal form of progressive muscular atrophy; clinical report of 2 families.....	*766
Equilibration, vestibular labyrinth of albino rat after prolonged rotation.....	121	Haldeman, K. O.: Tumors of pineal gland.*	*724
Eugenics, for marriage and pregnancy, neuropsychiatric point of view of significance of	1035	Hallucinations, experimental study.....	128
Eyes, intra-ocular and intracranial pressure; experimental study	*550	syndrome of mental automatism and its rôle in production of chronic hallucinatory psychoses	127
movements, Parinaud's syndrome and double crossed syndrome of Foville, with hemiplegia of encephalitic origin..	297	Hart, H. H.: Myasthenia gravis with ophthalmoplegia and constitutional anomalies in sisters.....	*439
movements, Parinaud's syndrome; syndrome of lower red nucleus.....	297	Psychosis in child aged 7 years.....	584
ocular muscles, unilateral (unassociated) innervation of	*691	Hassin, G. B.: Acute (epidemic?) encephalitis; case in new-born twin, with histologic observations	*44
ophthalmoplegia and constitutional anomalies in sisters with myasthenia gravis..	*439	Some errors in Dr. Frank Fremont-Smith's article "The Nature of the Cerebrospinal Fluid"	*96
optic nystagmus and its value in localization of cerebral lesions.....	1040	Hearing, localization of function of calculation	828
paralysis of third, fourth and sixth nerves associated with contracted pupil due to aneurysm, probably of left internal carotid artery near its termination....	475	Hemangioma of spinal cord.....	*755
paroxysmal spasm of lids as postencephalitic manifestation	*427	Hemiplegia, infantile, acquired, etiology of... of encephalitic origin; Parinaud's syndrome and double crossed syndrome of Foville with	*323 297
pituitary tumor with coma followed by complete recovery	461	organic, and following cerebral traumas, modification of venous pressure in....	830
spasmodic movements of; can they be produced by syphilis.....	*414	syndrome of lower red nucleus.....	297
temperature and retinal-pigment migration in eyes of frog.....	125	Hepato-Lenticular Degeneration: See Liver	
Face, diplegia of, multiple neuritis with....	823	Heredity, degenerative disease, new type of, localized in striate body and cortex with extensive myelolysis: its distinction from pseudoscleroses	809
innervation of some muscles of, by both facial nerves; muscular synergy and double innervation in human organism.	652	neuropsychiatric point of view of significance of eugenics for marriage and pregnancy	1035
pains of, trigeminal neuralgia and.....	1058	spastic degeneration; microscopic observations in idiopathic lateral sclerosis....	816
paralysis of, resection of superior cervical sympathetic ganglion in.....	823	Herpes, zoster, with paralysis of abdominal muscles and postherpetic neuralgia....	*437
paresis of, as manifestation of tumors of upper half of cervical spinal cord....	831		
Fatigue: clinical study.....	826		
Feeble-mindedness, time of adaptation of feeble-minded to new surrounding.....	629		
Fellowship, psychiatric	797		
Ferraro, A.: Experimental medullary concussion of spinal cord in rabbits; histologic study of early stages.....	*357		

INDEX TO VOLUME 18

	PAGE		PAGE
Hiccup, intermittent, thrombosis of cerebellar and vertebral arteries associated with; fatal case.....	*348	Masten, M. G.: Herpes zoster with paralysis of abdominal muscles and postherpetic neuralgia	*437
Hodgkin's Disease: See Lymphogranulomatosis		Meninges, capillary permeability of, and composition of cerebrospinal fluid.....	651
Horn's syndrome in epileptic patients....	477	hemorrhage, in new-born.....	289
of lesions of lower part of spinal cord....	653	pontile, cortical heterotopia in.....	831
Howe, H. S.: Cerebral circulation.....	*81	Meningioma, myotonic, dystrophy and; case	636
Huddleson, J. H.: Case of multiple sclerosis complicated by cancerous metastases to spine	*789	successful extirpation of; case.....	635
Hydrocephalus, cessation of persistent epileptic convulsions after puncture of lateral ventricles	315	Meningitis, actinobacillus	632
experimental research on pathogenesis of.	619	carcinomatosa	457
Hypernephroma, malignant, with arteriosclerosis in children.....	829	cerebrospinal, recurrence of, one year after first attack.....	298
Hypertonia, extrapyramidal, modification of postural tonus and appearance of Babinski sign following injections of scopalamine in	474	otitic	1037
Hypnotism, psychophysiology of, suggestive repersonalization	*159	sporadic meningococcus: sequelae following specific serum therapy in infancy and early childhood.....	632
Hypophysis: See Pituitary		Meningococcus, purpura fulminans due to..	633
Insanity, prevention of.....	1046	Menstruation, relation of, to permeability of skin capillaries and autonomic tonus of skin vessels	622
Iron, compounds, in cerebral and cerebellar cortex of insane; histochemical study of deposits in brain.....	295	Metabolism, basal, in beriberi.....	634
	825	in epilepsy; blood sugar curve.....	*395
Keratosis, production of, as treatment in epilepsy; chemical investigations of....	628	in epilepsy; sugar content of blood.....	*383
Kraus, W. M.: Syndrome of cerebral origins of visceral nervous system; question of somatic and visceral atrophy and review of reported cases of unilateral atrophy	*249	in obesity	604
Kulkov, A. E.: Progressive neuritic muscular atrophy	572	Migraine, neuropathic taint in.....	587
Labyrinth, ablation experiments on, in frogs	818	Molgula citrina (Alder and Hancock); activities and structure of free-swimming larva	124
vestibular, albino rat after prolonged rotation	121	Morgan, L. O.: Corpus striatum; secondary degenerations following lesions in man, and symptoms and acute degenerations following experimental lesions in cats..	*495
Larynx, tuberculosis of; treatment in 79 cases by surgical intervention in superior and inferior laryngeal (recurrent) nerve	288	Movements, habit, stereotyped, in children; analytic study	462
Lead poisoning in cats, histologic changes in central nervous system in, and their relation to clinical phenomena, particularly convulsions	1032	Muscles, spasm, hyperkinesia of organic and psychogenic origin.....	815
poisoning in nursing infants: 2 cases due to use of lead nipple shields.....	458	tonus, amyotonia congenita, pathology of; its relation to infantile progressive muscular atrophy	*982
poisoning, of nerve, experimental....	608, 609	tonus, decerebrate rigidity following encephalitis; case; necropsy.....	*1
Lehrman, P. R.: Fantasy of not belonging to one's family.....	*1015	Myasthenia gravis, ophthalmoplegia and constitutional anomalies in sisters.....	*439
Lennox, W. G.: Metabolism in epilepsy: sugar content of blood.....	*383	Myelin, origin of.....	*241
Metabolism in epilepsy: blood sugar curve	*395	Myelitis, hemorrhagic, in cauda equina dislocation of lower lumbar vertebrae with of unusual etiology; case.....	482
Leprosy, nervous disorders in.....	596	Myelolysis, extensive, with new type of heredodegenerative disease localized in striate body and cortex; its distinction from pseudoscleroses	809
Liver, hepatolenticular degeneration; clinical anatomic and experimental study.....	290	Myxedema, infantile encephalopathy and....	471
Long, E. R.: Adenoma of hypophysis without acromegaly, hypopituitarism or visual disturbances, terminating in sudden death	576	Nerve, acoustic, tumor of, erosion of petrous bone by; demonstration by roentgen ray	459
Lying, psychopathology of.....	121	brachial plexus paralysis.....	137
Lymphogranulomatosis, Hodgkin's disease, spinal cord compression in; case of 13 years' duration	142	cervical sympathetic, cerebral disorders following injuries to.....	119
McCartney, J. L.: Neuropsychiatry in China	*87	eighth, and labyrinth of ear; anatomy and physiology of	281
McKinley, E.: Cerebral circulation.....	*81	lesions in experimental lead poisoning.....	608, 609
Malaria, nervous disorders in.....	596	peripheral, explanation of 2-stage recovery of sensation during regeneration of....	1038
therapeutic: See Paralysis, General; Syphilis; Tabes Dorsalis		sciatic, neuritis	301
		suprarenal section of; its effect on organism	458
		tissue, neurotropic virus.....	807
		trigeminus, syphilitic radiculitis of; 2 cases	860
		Nervous System, anatomic, phylogenetic and clinical studies on.....	866
		angiospasm of, attempt at classification..	826
		disorders, in certain tropical diseases.....	596

INDEX TO VOLUME 18

	PAGE		PAGE
Nervous System—Continued		Nystagmus, optic, and its value in localization of cerebral lesions.....	1040
epilepsy of the stump; rôle of perivascular centripetal pathways; reflex physiopathic disorders: relationship with latent tetanus	654	unilateral, of palate, and respiratory disorders in pseudobulbar palsy.....	859
formation of vascular and perivascular incrustations (pseudo-calcification) in..	607	Obesity, metabolism in.....	604
histologic changes in, in cats poisoned with lead, and their relation to clinical phenomena, particularly convulsions....	1032	postencephalitic	830
hypophysis, anatomy and functions of; nervous regulation system of posterior lobe of hypophysis, nucleus supra-opticus and its fiber systems.....	822	Obituaries:	
innervation of some muscles of face by both facial nerves; muscular synergy and double innervation in human organism	652	Gilberti, Vincent, 1889-1927.....	796
lesions of, bladder disturbances in.....	821	Salmon, Thomas William, 1876-1927.....	292
physiology of central nervous system in starfish, <i>Asterias tenuispina</i>	122	O'Connor, M.: Metabolism in epilepsy: sugar content of blood.....*	383
sympathetic ramisection for relief of spasticity	631	Oligodendroglia: See Neuroglia	
sympathetic, researches on suprarenal lesions in some symptomatic depressive syndromes	622	Orton, S. T.: Stuttering; introduction....*	671
sympathetic, resection of superior cervical sympathetic ganglion in case of facial paralysis	823	Osnato, M.: Postconcussion neurosis—traumatic encephalitis; conception of postconcussion phenomena	*181
theory of decussation.....	814	Paralysis, acute ascending, pathologic anatomy and pathogenesis of.....	806
unilateral (unassociated) innervation of ocular muscles	*691	agitans, chronic, epidemic encephalitis and sugar metabolism in.....	820
visceral, syndrome of cerebral origins of; somatic and visceral atrophy; review of reported cases of unilateral atrophy....*	249	agitans, frontal lobe changes in.....	628
Neuralgia, atypical	309	agitans, levulose tolerance test in.....	459
postherpetic, and herpes zoster; paralysis of abdominal muscles with.....*	437	brachial plexus	137
roentgen-ray therapy in.....	283	cerebral, birth	631
trigeminal, and other facial pains.....	1058	direct and reflex, in extrapyramidal lesions	804
trigeminal, major; division of sensory root on both sides; first experience in series of 432 radical operations for.....	624	facial diplegia with multiple neuritis....	823
Neuritis, multiple, associated with syphilis..	136	facial, manifestation of tumors of upper half of cervical spinal cord.....	831
multiple, with facial diplegia.....	823	facial, resection of superior cervical sympathetic ganglion in.....	823
retrobulbar, in diabetes.....	459	infantile, orthopedic treatment of.....	303
sciatic	301	Landry's 2 cases of terminal peripheral neuronitis resembling	133
Neurofibromatosis, cortical tumors in Recklinghausen's disease	453	left hemiparesis with aphasia and with choreiform movement in the paralyzed side; case	130
Recklinghausen's, and skeleton.....	287	muscular, pseudohypertrophic	625
Neuroglia, acute regressive changes of (ameboid glia and acute swelling of oligodendroglia)	291	of abdominal muscles, and postherpetic neuralgia, herpes zoster with.....*	437
Neuronitis, terminal peripheral, 2 cases resembling Landry's paralysis.....	133	of third, fourth and sixth nerves, associated with contracted pupils, due to aneurysm, probably of left internal carotid artery near its termination....	475
Neuropsychiatric aspects of chorea in children	455	pseudobulbar, unilateral nystagmus of palate and respiratory disorders in....	859
Neuropsychiatry in China.....	*87	ulnar, contracted, relieved by treatment of nasal (sphenopalatine) ganglion....	457
Neuroses: See also Psychoneuroses		Paralysis, General, blood and spinal fluid of treated and untreated patients.....	601
fantasy of not belonging to one's family.*	1015	changes in cerebral cortex of syphilitic patients with, treated by malaria.....	599
neurotic character	812	differential diagnosis between cerebrospinal syphilis and, from pathologic and clinical standpoints	317
prevention of	466	juvenile; salient characteristics, with special reference to infantilism.....	824
Neurosyphilis, diagnosis and treatment of syphilis of central nervous system....	827	macroglia and microglia in.....	829
first symptoms of.....	633	malaria treatment of.....	286, 453
syphilis, of central nervous system.....	1048	nonspecific protein therapy in.....	628
late, tryparsamide in.....	123	physical constitution and.....	855
phases of	631	racial prospect of.....	460
sugar and chloride content of cerebrospinal fluid in.....	458	tertiary syphilitic manifestations in, especially after malaria cure.....	1031
traumatic; 3 cases.....	299	treatment of, by fever-producing methods.	653
tryparsamide in	459	Paraplegia, complete; operation and rapid recovery; medullary compression by hydatid cyst of vertebral column.....	653
		familial, spasmodic, peculiar variety of...	472
		flexion of cerebral origin.....	626
		Pott's	305
		syphilitic, rapidly developing; 34 cases...	284

INDEX TO VOLUME 18

	PAGE		PAGE
Patten, C. A.: Paroxysmal spasm of eyelids as postencephalitic manifestation.....	*427	Pyramidal Tract—Continued	
Pearson, G. H. J.: Spasmodic associated movements of eyes; can they be produced by syphilis?.....	*414	idiomuscular hyperexcitability and but-tocks sign, symptom of unilateral extra-pyramidal disturbance	652
Peptic Ulcer, mechanism of pain in gastric and in duodenal ulcer; production of pain by means of chemical irritants...	616	modification of postural tonus and appearance of Babinski sign following injections of scopolamine in extrapyramidal hypertonia	474
mechanism of pain in gastric and in duodenal ulcer; rôle of peristalsis and spasm	617	progressive muscular dystrophy with extrapyramidal signs	292
Perkins, O. C.: Syndrome of cerebral origins of visceral nervous system; question of somatic and visceral atrophy and review of reported cases of unilateral atrophy	*249	Rabies, pseudorabies in man; diagnosis and treatment	632
Pineal Gland, displacement, in head injury. syndrome	1056	Rand, C. W.: Hemangioma of spinal cord.*	755
tumors	*724	Recklinghausen's Disease: See Neurofibromatosis	
Pituitary, hypophysis; anatomy and functions of: nervous regulation system of posterior lobe of hypophysis, nucleus supra-opticus and its fiber systems.....	822	Reflexes, cremasteric, nature of.....	620
hypophysis, adenoma of, without acromegaly, hypopituitarism or visual disturbances, terminating in sudden death.	576	hyperreflexia of lower limbs after exercise	293
hypophysis, mesencephalic origin of nerve fibers of neural portion of.....	626	pathologic, so-called, nature of.....	1044
hypophysis, relative volumes of 3 epithelial parts of.....	617	plantar, Babinski sign, periodic, Cheyne-Stokes respiration and.....	652
induction of precocious sexual maturity by homotransplants	629	plantar, modification of postural tonus and appearance of Babinski sign following injections of scopolamine in extrapyramidal hypertonia	474
mesencephalic origin of nerve fibers of neural portion of hypophysis.....	626	Respiration, Cheyne-Stokes, and periodic Babinski sign	652
tumor	111	disorders, in dementia praecox.....	631
tumor, with coma, followed by complete recovery; case	461	postural, rôle of cerebral cortex in control of	829
Plague, bubonic, nervous disorders in.....	596	tendon, of abdomen.....	828
Polio-myelitis, epidemiology of; its mode of spread	616	disorders, unilateral nystagmus of palate and, in pseudobulbar palsy.....	859
Posture, erect, man's, evolution of.....	1041	Retina, rodless; ophthalmic mutation in house mouse, <i>mus musculus</i>	623
Priapism; case	399	Roentgenotherapy, in neuralgia.....	283
Prince, M.: Suggestive repersonalization; psychophysiology of hypnotism.....	*159	irradiation of tumor of brain.....	648
Psychiatry, and psychology, biologic point of view of Adolf Meyer in.....	606	of pineal tumor.....	301
clinical, hopes and disappointments of.....	1029	Rosenow E. C.: Thrombosis of cerebellar and vertebral arteries associated with intermittent hiccup; observations in fatal case	*348
early days and experiences in, 1870-1900.	656	Schaffer, A. J.: Etiology of infantile acquired hemiplegia	*323
Psychoanalysis, relation to psychotherapy..	660	Schaltenbrand, G.: Encephalitis periaxialis diffusa (Schilder); case report with clinical and anatomic studies.....	*944
Psychology, psychiatry and, biologic point of view of Adolf Meyer in.....	606	Schenck, H. P.: Hexylresorcinol as cerebrospinal antiseptic	590
Psychoneuroses, value of combining methods of treatment in.....	848	Schwab, S. I.: British American neurologic meeting; some impressions.....	*779
Psychoses, attempts to cure or to influence, by means of shock reaction.....	279	Sclerosis, amyotrophic lateral, histopathology of	626
catatonic, with motility disturbances, following carbon monoxide poisoning.....	452	amyotrophic lateral, in syphilitic person..	859
chronic hallucinatory, syndrome of mental automatism and its rôle in production of	127	disseminated, affective symptomatology of	819
connotation of constitutional psychopathic inferiority without	451	idiopathic, lateral (spastic heredodegeneration) microscopic observations in.....	816
constitutional psychologic factors in.....	1045	multiple, complicated by cancerous metastases to spine; case.....	*789
constitution and	294	multiple, hemorrhages at birth simulating.	643
fantasy of not belonging to one's family.*	1015	multiple, pathogenesis of.....	446
in child, aged 7 years.....	584	new type of heredodegenerative disease localized in striate body and cortex with extensive myelolysis: its distinction from pseudoscleroses.....	809
obsessions in relation to.....	123	posterolateral, following epidemic encephalitis	308
Purpura fulminans due to meningococcus..	633	posterolateral, so-called, theory concerning pathogenesis of.....	480
Pyramidal Tract, direct and reflex paralyses in extrapyramidal lesions.....	804	Sensation, 2-stage recovery of, during regeneration of peripheral nerve.....	1038
extrapyramidal development, unusual type	846	Sensibility, deep, some observations on....	125
hyperkinesia of organic and psychogenic origin	815	Shock, reaction, attempts to cure or influence psychic diseases by means of.....	279
		Sinus, longitudinal, obstruction of.....	*374

INDEX TO VOLUME 18

	PAGE		PAGE
Skin, permeability of capillaries and autonomic tonus of vessels of, relation of menstruation to	622	Stuttering	*671
Sleep, idiopathic narcolepsy: disease sui generis; mechanism of sleep	817	cause and cure	443
Society Transactions:		dysintegration of breathing movements during stuttering	*673
Boston Society of Psychiatry and Neurology	127, 475, 1056	photographic studies of voice in	*998
Chicago Neurological Society	301, 485, 655, 1050	Syphilis: See also Neurosyphilis	
New York Neurological Society	137, 461, 644, 846	among mental defectives	830
Philadelphia Neurological Society	130, 308, 635, 832	amyotrophic lateral sclerosis in	859
Société de neurologie de Paris	297, 471, 651, 859	can it produce spasmodic movements of eyes?	*414
Spasmophilia of adults	120	comparison of Vernes and Wassermann tests as applied to spinal fluid	*56
Spasticity, sympathetic ramisection for relief of	631	congenital, degree of mental deficiency resulting from	620
Speech, stuttering	*671	experimental, in rabbit, studies of therapeutic effect of fever in	119
stuttering: dysintegration of breathing movements during	*673	incidence among criminals	1051
stuttering, photographic studies of voice in	*998	method for demonstration of spirochaeta pallida in single microscopic sections	*73
Spiller, W. G.: Unilateral (unassociated) innervation of ocular muscles	*691	multiple neuritis associated with	136
Spina bifida occulta, symptomatology and operative treatment of	1046	stovarsol in the treatment of	618
Spinal Cord, cervical, facial paresis as manifestation of tumors of upper half of	831	syphilitic radiculitis of trigeminal nerve; 2 cases	860
clinical investigations of etiology of syringomyelia, "Status Dysraphicus"	594	Syringomyelia, clinical investigations of etiology of; "Status Dysraphicus"	594
compression in Hodgkin's disease; 13 years' duration	142	Tabes Dorsalis, malaria treatment of	277
dislocation of lower lumbar vertebrae with consequent hemorrhagic myelitis in cauda equina	482	Tantrus, sex in	460
experimental medullary concussion of, in rabbits; histologic study of early stages	*357	Tetany, experimental, effect of ultraviolet radiation on	124
hemangioma of	*755	infantile, treatment of, with a parathyroid extract	630
lesions of lower part of, Horner's syndrome of	653	latent, relationship of physiopathic disorders to, in epilepsy of stump	654
pernicious anemia, achylia gastrica and combined cord degeneration; their relationship	116	oxidation and reduction of immunologic substances; tetanolysin	633
syndrome of Claude Bernard-Horner in lesions of lower part of	653	Thrombosis, of cerebellar and vertebral arteries associated with intermittent hiccup; fatal case	*348
traumatic lesions of, symptomatology and surgical treatment	798	Thymus gland	450
tumor, adhesive spinal arachnoiditis simulating; operation and complete recovery	140	Thyroid, hyperthyroidism, Fox-Fordyce disease associated with	1049
tumor, ventrally situated, clinicopathologic features of	282	Travis, L. E.: Stuttering: dysintegration of breathing movements during stuttering	*673
Spinal Fluid, theory and practice of permeability tests by "brommethod"	824	Stuttering: photographic studies of voice in stuttering	*998
Spine, anesthesia of	623	Tropisms of mammals	632
automatism of reflexes of	275	Trypanosomiasis, nervous disorders in	596
cancer metastases to, multiple sclerosis complicated by	*789	Tryparsamide: See Neurosyphilis	
dislocation of lower lumbar vertebrae, with consequent hemorrhagic myelitis in cauda equina	482	Tuberculosis, of larynx; treatment by surgical intervention in superior and inferior laryngeal (recurrent) nerve; 79 cases	288
medullary compression by hydatid cyst of the vertebral column; complete paraplegia; operation and rapid recovery	653	Vaccination, against smallpox, etiology of encephalitis following	613
Stookey, B.: Intradural spinal lipoma; report of a case and symptoms for 10 years in a child, aged 11; review of literature	*16	Vernes Test: See Syphilis	
Spirochetes, resemblance of abnormal bacteria flagella in cultures to	633	Vertebra: See Spine	
Staining, method for demonstration of Spirochaeta pallida in single microscopic sections	*73	Vertigo, incidence in endocrine disorders	457
of glia, Cajal and Hortege methods; new step in preparation of formaldehyde-fixed material	*263	Vestibular Apparatus, functions, neurologic study; ependymal glioma	295
Strauss, I.: Massive cerebral hemorrhage; its relation to preexisting cerebral softening	*215	nucleus, triangular, glioma in fourth ventricle with involvement of	454
		tests; value in localization of intracranial lesions; 116 verified cases	449
		Virus, neurotropic	897
		Vision, localization of function of calculation	828
		theory of decussation	814
		Voice, in stuttering, photographic studies of	*998
		Vomiting, physiology of	1027
		recurrent, hypoglycemia and	627
		Wassermann Test: See Syphilis	
		Weisenburg, T. H.: Decerebrate rigidity following encephalitis; case with necropsy	*1
		Yellow Fever, nervous disorders in	596
